INDEPENDENT AUDITOR'S REPORT

Honorable Mayor
and Members of City Council
City of Belleville, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Belleville, Illinois as of and for the year ended April 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's administration. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the administration, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described more fully in Note 1, the City of Belleville, Illinois prepares its financial statements on the modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, except for the City's Enterprise Funds and Pension Trust Funds, which have been prepared on the accrual basis of accounting.

The City of Belleville has not presented the Management Discussion and Analysis that accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not required to be part of, the basic financial statements.

As discussed in Note 1 to the financial statements, the City has not recorded fixed assets or infrastructure in governmental activities and, accordingly, has not recorded depreciation expense on those assets. Accounting principles generally accepted in the United States of America require that those assets be capitalized and depreciated, which would increase the assets, net assets, and expenses of the governmental activities. The amount by which this departure would affect the assets, net assets, and expenses of the governmental activities is not reasonably determinable.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the governmental activities of the City of Belleville, Illinois as of April 30, 2008 or the changes in financial position thereof for the year then ended.

In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities (accrual basis), each major governmental fund (modified cash basis), the major enterprise fund (accrual basis) and the aggregate remaining fund information of the City of Belleville, Illinois, as of April 30, 2008, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with the basis of accounting described in Note 1.

The budgetary comparison information (pages 36 through 42), and pension funding progress information (pages 43 and 44), are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of the administration regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of Belleville, Illinois' basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

CITY OF BELLEVILLE, ILLINOIS

RECONCILIATION OF THE STATEMENT OF REVENUES AND
EXPENDITURES ARISING FROM MODIFIED CASH BASIS
TRANSACTIONS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED APRIL 30, 2008

Amounts reported for governmental activities in the statement of activities
are different because:

Net change in fund balances - total governmental funds \$ 152,183

The issuance of long-term debt (e.g., bonds, loans) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of those differences in the treatment of long-term debt and related items.

(22,031,379)

Activity related to the internal service funds are included in the statement of net assets in the government wide financial statements as these funds benefit the general government as a whole.

(574,678)

Change in net assets of governmental activities

CITY OF BELLEVILLE, ILLINOIS

NOTE TO FINANCIAL STATEMENTS APRIL 30, 2008

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Belleville, Illinois (City) was incorporated on March 30, 1850, under the provisions of the State of Illinois. The City operates under a Mayor-Council form of government and provides the following services as authorized by its charter: public safety (police and fire), streets, sanitation, recreation, public improvements, planning and development and general administrative services. Other services include sewer utilities and motor vehicle parking facilities.

(a) Reporting entity

The City defines its reporting entity in accordance with Codification of Governmental Accounting and Financial Reporting Standards, Section 2100. The criteria used in determining the scope of the entity for financial reporting purposes includes, but is not limited to, the method of budget adoption, taxing authority, whether debt is secured by revenues or general obligations of the City, the obligation of the City to finance any deficits that may occur and supervision over the accounting functions.

Component units are organizations for which the City, as the primary government, is financially accountable. To be considered financially accountable, the organization must be fiscally dependent on the City or the City must appoint a majority of the board of the organization and either (1) be able to impose its will on the organization or (2) the relationship must have the potential for creating a financial benefit to or imposing a financial burden on the City.

Based on the foregoing, the City's general purpose financial statements include all funds, account groups, agencies, boards, commissions and authorities that are controlled by or dependent on the City.

(b) Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

(c) Measurement focus, basis of accounting and financial statement presentation

The proprietary fund and pension fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified cash basis of accounting. Accordingly, receipts are recorded when cash is received and disbursements are recorded when checks are written. Only assets representing a right to receive cash arising from a previous payment of cash are recorded as assets of a fund. In the same manner, only liabilities resulting from previous cash transactions are recorded as liabilities of a particular fund. Property taxes are recognized as revenues in the year for which they are received.

The Government-wide financial statements are reported on the basis of accounting as used by the individual funds in the fund financial statements.

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The City reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The tax increment financing fund accounts for all activity related to the various tax increment financing districts of the City.

The capital improvements fund accounts for the spending of monies related to a prior bond issue for capital improvements of the City

The City reports the following major proprietary fund:

The sewer fund accounts for all activities related to the billing, administration and collection processes of the sewer utilities. The City operates the sewage treatment plant, sewage pumping stations and collection systems.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected to follow subsequent private-sector guidance. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are reimbursements between funds for direct costs applicable to the other fund. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

(d) Assets, liabilities and net assets or equity

Deposits and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposits and short-term investments with original maturities of three months or less.

The City is authorized by state statute to invest in obligations of the United States of America, insured interest bearing accounts of banks, savings and loan associations or credit unions, certain short-term obligations of corporations organized in the United States, money market mutual funds that invest in obligations of the United States of America or its agencies or are guaranteed by the full faith and credit of the United States of America, the Illinois Funds and repurchase agreements of government securities. Investment income is recognized as earned.

The pension funds are authorized to invest in all the same obligations of the City as well as preferred or common stocks to a limited percentage. Investment income is recognized as earned.

Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade receivables are shown net of an allowance for uncollectible. The allowance for uncollectible accounts in the enterprise funds at April 30, 2008 is \$167,727.

Unbilled sewer utility receivables related to the business-type activities are recorded at year-end. They are determined by taking cycle billings subsequent to April 30 and prorating the applicable number of days to the current fiscal year.

Capital assets

Capital assets, which include property, plant and equipment, are reported in the business-type activities columns in the government-wide financial statements. The government defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects when constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment are depreciated using the straight line method over the following estimated useful lives:

<u>Type of Property And Equipment</u>	<u>Estimated Useful Lives</u>
Buildings and Improvements	8 - 50 Years
Collection Systems	10 - 50 Years
Vehicles and Equipment	4 - 10 Years

The City does not record the fixed assets of the governmental activities and therefore does not include these amounts in the statement of net assets. Depreciation expense of the governmental fixed assets is also not calculated or reported.

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net assets. Debt premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the debt using the effective interest method.

In the fund financial statements, governmental fund types recognize debt premiums, discounts, and issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums and discounts related to debt issuances are reported as other financing sources and uses. Issuance costs are reported as debt service expenditures.

Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative City plans that are subject to change.

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

(e) Estimates

The City uses estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. These estimates and assumptions affect the reported amounts of assets and liabilities and the reported revenues and expenditures. Actual results could vary from estimates that were used.

(f) Risk management

The City is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions and natural disasters for which the City carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

(g) Budget and budgetary accounting

The City's procedures in establishing the budgetary data reflected in the basic financial statements are as follows:

1. Prior to April 1, the Finance Officer submits to the City Council a proposed operating budget for the fiscal year commencing the following May 1. The operating budget includes proposed disbursements and related financing methods.

2. Prior to May 1, the budget is legally enacted through passage of an ordinance.

3. The Finance Officer is authorized to transfer budgeted amounts between line items within an object level of a department; however, any revisions that alter the total expenditure of any object level within a department must be approved by the City Council.

4. Budgets for all funds are adopted on the cash basis.

5. Unused appropriations for all the above annually budgeted funds lapse at year end.

6. The budget amounts shown in the financial statements are the final authorized amounts as revised during the year.

(h) Inventory

Inventory is stated at the lower of cost or market. Cost is determined primarily by the first-in, first-out method.

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

(i) Compensated absences

City employees earn vacation during the current year which must be taken in the subsequent year. For the proprietary funds, accrued vacation time is recognized as a liability when earned and any unused accumulated vacation is payable to employees upon termination. Accrued vacation is recorded in the respective proprietary fund type from which it will be paid. Unused sick leave benefits are paid to terminating employees at \$1.50 per hour for the first 1,000 hours and \$3.75 per hour in excess of 1,000 hours and are accrued accordingly. Retiring employees can elect to have up to 1,920 unused sick pay hours transferred to their pension, which will be paid out at the calculated pension rate.

NOTE 2: CASH AND INVESTMENTS

At April 30, 2008, the carrying amount of the City's deposits was \$34,239,125 and the bank balance was \$31,064,454. The deposits were comprised of interest checking, savings, federal government obligation funds and certificates of deposit. The City also maintains cash on hand of \$2,561.

Custodial Credit Risk. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City requires that all deposits be fully covered by FDIC insurance or collateralized with investments held by the financial institution in the City's name. As of April 30, 2008, all of the City's bank balance was either FDIC insured or collateralized except for \$62,346. These amounts are reported in the financial statements as follows:

Cash and Cash Equivalents	\$ 33,990,553
Investments	<u>251,133</u>
	<u>\$ 34,241,686</u>

Fire Pension

At April 30, 2008, the carrying amount and the bank balance of the Fire Pension Fund's deposits was \$5,148,303. The deposits were comprised of an interest checking account, money market accounts and certificates of deposit.

Custodial Credit Risk. Custodial credit risk is the risk that in the event of a bank failure, the Fire Pension Fund's deposits may not be returned to it. The Fire Pension Fund requires that all deposits be fully covered by FDIC insurance or collateralized with investments held by the financial institution in the Fire Pension's name.

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

As of April 30, 2008, the Fire Pension Fund had the following investments:

<u>Investment</u>	<u>Weighted Average Maturity (Years)</u>	<u>Fair Value</u>
Federal Home Loan Bank	6.10	\$ 765,352
Federal National Mortgage Association	5.78	499,610
Federal Home Loan Mortgage	8.72	305,175
U.S. Treasury Notes	3.41	1,807,381
Mutual Funds	--	5,560,269
Annuities	--	<u>2,161,453</u>
		11,099,240
Deposits as reported above		<u>5,148,303</u>
Total deposits and investments		<u>\$ 16,247,543</u>
As included in the combined financial statements:		
Cash and Cash Equivalents		\$ 3,677,750
Investments		<u>12,569,793</u>
		<u>\$ 16,247,543</u>

Interest Rate Risk. The Fire Pension Fund's investment policy limits investment maturities in order to maintain sufficient liquidity to reflect the cash flow needs of the fund type being invested. The policy also requires diversification of the investment portfolio via length of maturity as a means of managing its exposure to fair value losses arising from increasing interest rates

Credit Risk. As of April 30, 2008, the Fire Pension Fund's investment credit ratings were as follows:

<u>Investment</u>	<u>Standard & Poor's Rating</u>	<u>Moody's Investors Service Rating</u>
Federal Home Loan Bank	AAA	Aaa
Federal National Mortgage Association	AAA	Aaa
Federal Home Loan Mortgage	AAA	Aaa

Concentration of Credit Risk. As of April 30, 2008, the Fire Pension's investments are concentrated as follows:

<u>Investment</u>	<u>Percent</u>
Phoenix Home Life Annuity	13.30%

Foreign Currency Risk. As of April 30, 2008, the Fire Pension Fund has no foreign currency risk

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Police Pension

At April 30, 2008, the carrying amount and bank balance of the Police Pension Fund's deposits was \$4,519,238. The deposits were comprised of checking accounts, certificates of deposit and money market accounts.

Custodial Credit Risk. Custodial credit risk is the risk that in the event of a bank failure, the Police Pension Fund's deposits may not be returned to it. The Police Pension requires that all deposits be fully covered by FDIC insurance or collateralized with investments held by the financial institution in the Police Pension Fund's name.

As of April 30, 2008, the Police Pension Fund had the following investments:

<u>Investment</u>	<u>Weighted Average Maturity (Years)</u>	<u>Fair Value</u>
The Illinois Funds	Daily	\$ 3,968,161
U.S. Treasury Notes	4.20	931,828
U.S. Treasury Strips	14.69	1,603,788
Federal National Mortgage Association	7.64	1,263,518

	<u>\$11,151,840</u>	<u>\$ -</u>	<u>\$ 1,129,455</u>	<u>\$10,022,385</u>	<u>\$ 1,234,537</u>

In prior years, the City has defeased old bond issues. The City used the proceeds from the newly issued debt to purchase U.S. government securities that were placed in trust funds. The investments and earnings from the investments are used to service the defeased debt until the debt is called or matures. As of April 30, 2008, the amount of defeased debt outstanding from prior issues amounted to \$1,880,000. As a result of these transactions, the refunded bonds are considered to be defeased and the liability for those bonds has been removed from the balance sheet of the City.

NOTE 5: PENSION AND RETIREMENT PLANS

Illinois Municipal Retirement Fund

The City's defined benefit pension plan, Illinois Municipal Retirement (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multi-employer defined benefit plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly.

IMRF issues a financial report that includes financial statements and required supplementary information. The report may be obtained at www.imrf.org/pubs/pubs_homepage.htm or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Employees participating in IMRF are required to contribute 4.50% of their annual covered salary. The member rate is established by state statute. The City is required to contribute at an actuarially determined rate. The

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

employer rate for calendar year 2007 was 9.04% of payroll. The employer contribution requirements are established and may be amended by the IMRF Board of Trustees. IMRF's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis (overfunded liability amortized on open basis). The amortization period at December 31, 2007 was 25 years.

For December 31, 2007, the City's annual pension cost of \$705,561 was equal to the City's required and actual contributions. The required contribution was determined as part of the December 31, 2005 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) 7.50% investment rate of return (net of administrative expenses), (b) projected salary increases of 4.00% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10.0% per year depending on age and service, attributable to seniority/merit, and (d) post-retirement benefit increases of 3% annually. The actuarial value of IMRF assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period with a 15% corridor. The assumptions used for the 2007 actuarial valuation were based on the 2002-2004 experience study.

Police Pension Fund

Plan Description

Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3) and may be amended only by the Illinois legislature.

The Police Pension Plan provides retirement benefits as well as death and disability benefits. A police officer age 50 or more who has at least 20 years of creditable service, and is no longer in service shall receive a monthly pension of ½ of the salary attached to the rank held by the officer on the police force for one year immediately prior to retirement or, beginning July 1, 1987 for persons terminating service on or after that date, the salary attached to the rank held on the last day of service or for one year period to the last day, whichever is greater. The pension shall be increased by 2.5% of

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

such salary for each additional year of service over 30 years, to a maximum of 75% of such salary. Beginning January 1, 2001, the minimum retirement pension for a police officer having at least 20 years of creditable service shall be \$1,000 per month, without regard to whether or not retirement occurred prior to that date.

A police officer mandatorily retired from service due to age by operation of law, having at least 8 but less than 20 years of creditable service, shall receive a pension equal to 2.5% of the salary attached to the rank he or she held on the police force for one year immediately prior to retirement or, beginning July 1, 1987 for persons terminating service on or after that date, the salary attached to the rank held on the last day of service or for one year prior to the last day, whichever is greater, for each year of creditable service.

A police officer who retires or is separated from service having at least 8 years but less than 20 years of creditable service, who is not mandatorily retired due to age by operation of law, and who does not apply for a refund on contributions at his or her last separation from police service, shall receive a pension upon attaining age 60 equal to 2.5% of the salary attached to the rank held by the police officer on the police force for one year immediately prior to retirement or, beginning July 1, 1987 for persons terminating service on or after that date, the salary attached to the rank held on the last day of service or for one year prior to the last day, whichever is greater, for each year of creditable service.

The monthly pension of a police officer who retires on disability or is retired for disability shall be increased in January of the year following the year of attaining age 60, by 3% of the original grant of pension for each year he or she received pension payments. In each January thereafter, the police officer shall receive an additional increase of 3% of the original pension.

The monthly pension of a police officer who retired shall be increased by 3% of the currently granted pension in January of each year thereafter.

The Plan issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing: City of Belleville, 101 South Illinois Street, Belleville, Illinois 62220.

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Funding Policy

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. By the year 2033, the City's contributions must accumulate to the point where the past service cost for the Police Pension is fully funded. The Entry Age Normal Cost actuarial funding method is used to determine contribution.

Annual Pension Cost

Employer and employee contributions of \$1,732,905 and \$468,461 were made to the Plan during the year ended April 30, 2008. The contributions are typically based upon the Illinois Department of Insurance Annual Actuarial Tax Levy or an independent actuarial valuation obtained by the City. The latest actuarial valuation was performed at April 30, 2007 and was used for the contribution for the year ended April 30, 2008.

Firemen's Pension Fund

Plan Description

Fire sworn personnel are covered by the Firemen's Pension Plan which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits, as well as the employee and employer contributions levels, are mandated by Illinois Compiled Statutes (40 ILCS 5/4) and may be amended only by the Illinois legislature.

The Firemen's Pension Plan provides retirement benefits as well as death and disability benefits. A firefighter age 50 or more who has at least 20 years of creditable service, and is no longer in service as a firefighter, shall receive a monthly pension of $\frac{1}{2}$ the monthly salary attached to the rank held by him or her in the fire service at the date of retirement.

The monthly pension shall be increased by $\frac{1}{12}$ of 2.5% of such monthly salary for each additional month over 20 years of service through 30 years of service, to a maximum of 75% of such monthly salary.

A firefighter who retires or is separated from service having at least 10 but less than 20 years of creditable service, who is not entitled to receive a disability pension and who did not apply for a refund of contributions at his or her last separation from service, shall receive a reduced retirement benefit.

CITY OF BELLEVILLE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The monthly pension of a firefighter who is receiving a disability pension under this Article shall be increased, in January of the year following the year the firefighter attains age 60, by 3% of the originally granted monthly pension for each year he or she received pension payments. In each January thereafter, the firefighter shall receive an additional increase of 3% of the original monthly pension.

The monthly pension of a firefighter who retires after January 1, 1986, shall upon either the first of the month following the first anniversary of the date of retirement if 55 years of age or over at retirement date, or upon the first day of the month following attainment of age 55 if it occurs after the first anniversary of retirement, be increased by 3% of the originally granted monthly pension for each full year that has elapsed since the pension began, and by an additional 3% in each January thereafter.

The Plan issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing: City of Belleville, 101 South Illinois Street, Belleville, Illinois 62220.

Funding Policy

Covered employees are required to contribute 9.455% of their salary to the Firemen's Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without interest. The City is required to contribute the remaining amounts (not less than 8.045%) necessary to finance the plan as actuarially determined by an enrolled actuary. By the year 2033, the City's contributions must accumulate to the point where the past service cost for the Firemen's Pension Plan is fully funded. The Entry Age Normal Cost actuarial funding method is used to determine contributions.

Annual Pension Cost

Employer and employee contributions of \$1,650,188 and \$286,977 were made to the Plan during the year ended April 30, 2008. The contributions are typically based upon the Illinois Department of Insurance Annual Actuarial Tax Levy or an independent actuarial valuation obtained by the City. The latest actuarial valuation was performed at April 30, 2007 and was used for the contribution for the year ended April 30, 2008.

The City has entered into two redevelopment agreements to develop areas within tax increment financing boundaries. The City and the developers entered into agreements by which the developer would incur reimbursable costs which would be submitted for payment through Tax Increment Finance Notes. The debt would then be retired with tax revenues generated from the increase in values of the developed properties. The notes are payable solely from the new revenues and does not constitute a debt of the City.

During the year ended April 30, 2008, the City issued bonds to refund the notes due on the Frank Scott Parkway Development Area agreement. As a result of the bond issue, this debt is now included in the debt balances of the City as reported in Note 4. The Tax Increment Financing notes for the Carlyle/Green Mount Redevelopment Project Area of \$19,357,929 are still outstanding and not reflected in the debt of the City as of April 30, 2008.

NOTE 7: RECEIVABLES

Accounts receivable for the City, as reported in the statement of net assets, including the applicable allowances for uncollectible accounts, are as follows as of April 30, 2008:

Tort Liability Fund	(570)
	<u>\$ -</u>

The City makes transfers between funds to reimburse expenses paid from one fund that are related to or allocable to another fund.

NOTE 10: SELF INSURANCE

On May 1, 2007, the City adopted a self-insured group health insurance program, which is administered by a service agent. The Insurance Fund is responsible for collecting interfund premiums for covered employees and retirees, paying benefit claims and administrative expenses, and purchasing certain insurance policies. Medical claims exceeding a Specific Stop Loss or a maximum annual aggregate deductible are covered through a private insurance carrier. Fund revenues are received as contribution premiums from other funds and are planned to match the total of expenses of insurance premiums for coverage obtained, claims resulting from the self-insurance program and administrative expenses.

2006 is the latest year for which a tax was levied and collected. The 2007 actuarial estimate is levied in December 2007 and collected in fiscal year 2009.

The actuarial valuations presented are prepared by the Illinois Department of Insurance using the following parameters:

Actuarial Cost Method:	Entry Age Normal Cost
Amortization Method:	Level Percentage of Payroll
Remaining Amortization Period:	26.1699 Years
Asset Valuation Method:	Mixed Amortized Cost and Market
Actuarial Assumptions:	
Interest Rate	7.0 %
Salary Progression	5.5 %
Cost of Living Adjustments	3.0 %

Made to Required Contributions	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%

On a market value basis, the actuarial value of assets as of December 31, 2007 is \$22,797,620.

On a market basis, the funded ratio would be 107.85 percent.

Digest of Changes - The actuarial assumptions used to determine the actuarial accrued liability for 2007 are based on the 2002-2004

Experience Study. The principal changes were:

 The 1994 Group Annuity Mortality implemented

 For regular members, fewer normal and more early retirements are expected to occur.

The actuarial valuations presented are prepared by the Illinois Municipal Retirement Fund using the following parameters:

Actuarial Cost Method: Entry Age Actuarial Cost

Amortization Method: Level Percentage of Payroll

Remaining Amortization Period: 25 Years

Asset Valuation Method: Techniques that smooth the effects of short term volatility over a five year period.

Actuarial Assumptions:

 Interest Rate 7.5 %

 Salary Progression 4.4 - 14.0 %

 Cost of Living
 Adjustments 3.0 %
